Resident Name:

Resident Apartment #:

Dear Residents,

We have put quarantine protocols in place in an effort to reduce your risk of being infected with COVID-19. We continue to stress that staying in your apartment, avoiding direct contact with others and with surfaces that an infected, asymptomatic person may have touched, is essential to protect you.

We understand your desire to go outside for fresh air and a walk, and we want to plan for how to offer, **at some point**, a safe way to do so. To ensure your safety first and provide an opportunity for those that wish to go outside, please answer the questions below (**circle your answers**):

1. Do you want to leave your apartment for walks in the Mather Place outdoor courtyards?

YES **NO. I WISH TO REMAIN IN MY APARTMENT UNTIL THERE IS LESS RISK.**

2. If YES, do you prefer to walk in the morning (after 9:30 a.m.), or afternoon (after 1:00 p.m.)?

MORNING **AFTERNOON** **EITHER**

3. Do you want to walk vigorously or simply sit outside and enjoy the outdoors?

VIGOROUS WALKING **SIT OUTSIDE**

4. The State of Illinois and the Centers for Disease Control recommend wearing cloth face coverings in public settings to help prevent the spread of the virus. Mather Place requires that you wear a face mask in order to leave your apartment. Please acknowledge that you will wear your mask outside of your apartment by checking Yes below.

Yes, I will keep my mask on while outside of my apartment. _____

Once we receive your responses, we will develop plans to support your wishes. **We cannot provide an exact date as to when you may leave your apartment for walks. April 24 is the earliest date that we will have gone 14 days without a new positive case at Mather Place and the earliest date to consider having you leave your apartment, assuming there are no new cases reported. If county or state officials report to us that cases are rising, we may delay the start date.**

Please place your paper with responses on your chair or table outside your apartment door. We will pick these up after 5:00 p.m. today.

Katrina O'Neill
Executive Director
