

# COVID-19 UPDATE

March 2, 2022

Dear Employees of Mather Place,

We are pleased to see positivity rates for COVID-19 decrease in our community and in the Village of Wilmette, resulting in things starting to open up with fewer restrictions. Mask mandates have been removed for the general public and we are optimistic that we'll continue to see improvement.

At Mather Place, we're committed to keeping residents, employees, and their family members healthy and safe. We'll continue to take strong infection control measures to help ensure everyone's health. **Wearing masks is required by employees, residents, and guests in Mather Place. This is in compliance with current guidelines from the Illinois Department of Public Health and the Chicago Department of Health for congregate living communities like ours.**

Thank you for your commitment in practicing infection control measures over the past two years. We appreciate your support in keeping one another safe and well. We know you will continue to do just that.

Please know that we monitor state and local regulations regarding masking and more, and, as those regulations change, we will update our protocols. You'll be notified of those updates.

In the meantime, please take care and stay well.

Sincerely,

Katrina O'Neill  
Executive Director
